

FortiManager Configuration Lab:

Internal Port	Port2
Management Port	Port1
Management IP Address	192.168.100.210
Internal IP Address	10.0.1.253
Gateway	10.0.1.254
FortiManager Hostname	FMG
FortiManager Version	FMG_VM64_KVM-v7.2.0-build1124
MGMT-PC	Management Cloud0

Change Hostname

```
FMG-VM64-KVM # config system global
(global)# set hostname FMG
(global)# end
```

Configure Interfaces

```
FMG # config system interface
(interface)# edit port1
(port1)# set ip 192.168.100.210/24
(port1)# next
(interface)# edit port2
(port2)# set allowaccess ping
(port2)# set ip 10.0.1.253/24
(port2)# end
```

Configure Route

```
FMG # config system route
(route)# edit 1
(1)# set device port2
(1)# set gateway 10.0.1.254
(1)# end
```

Testing

```
FMG # execute ping 10.0.1.254
```

Extra

```
config system global
set ssl-low-encryption enable
set oftp-ssl-protocol tlsv1.0
set enc-algorithm low
set fgfm-ssl-protocol tlsv1.0
end
```

First Time Login:

Once you have configured a port's IP address and network mask, launch a web browser and enter the IP address you configured for the port management interface. The GUI will open with an Evaluation License dialog box. Let's activate a trial license for the VM. Select Free Trial, and click Login with FortiCloud. Use your FortiCloud account credentials to log in, or create a new account. FortiManager connects to FortiCloud to get the trial license. The system will restart to apply the trial license.

FortiManager-VM64-KVM

This product requires a valid license. You could log in to FortiCloud to activate your purchased license, or use a free trial license.

Free Trial License Agreement

without limitation, all changes and improvements made, requested, or suggested by Customer. All results of the trial and any feedback shall be deemed to be confidential information and trade secrets of Fortinet, and may not be disclosed by Customer to any third party without Fortinet's written consent. At Fortinet's request, Customer shall provide to Fortinet any results of the trial.

8) COMPLIANCE WITH LAW.

The parties agree to comply with applicable data protection laws (meaning all laws, regulations and other legal requirements relating to privacy, data security, communications secrecy, security breach notification, or the processing of personal data), to the extent that they process personal data (as defined in applicable data protection laws). The parties will comply with all applicable import and export laws. The laws of the State of California govern, any and all disputes relating to this Agreement, without regard to conflict of law principles, and both parties hereto consent to jurisdiction in Santa Clara County, California.

9) CONFIDENTIALITY.

Customer understands that this Agreement is strictly confidential and not discuss the terms with any third parties

10) SURVIVAL OF TERMS.

The terms relating to confidentiality, reservations of right and compliance with Law shall survive the termination of this Agreement.

By clicking on the "ACCEPT" button and agreeing to its terms, the submitting individual represents that he or she is authorized to bind the entity listed below in full to the terms in this Agreement. You acknowledge and agree that you have carefully read this Agreement and fully understand and agree to its contents. You hereby acknowledge and agree that you have had the opportunity to negotiate the terms of this Agreement and request modifications. Further, each party represents that it has entered into this Agreement without undue influence or unequal bargaining power, that each party is sophisticated and accepts responsibility for entering this Agreement, and that each party is sophisticated in commercial matters and has had the opportunity to seek the advice of counsel prior to executing this Agreement.

Apply License

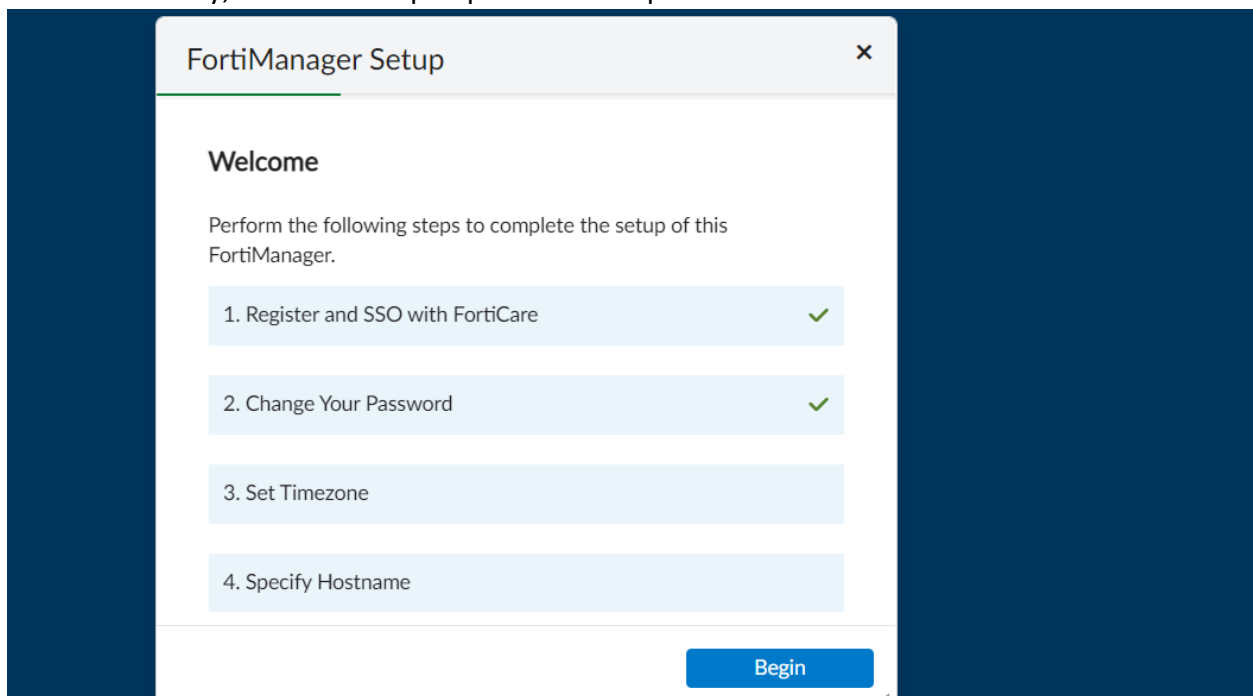

You have logged in successfully to FortiCloud. The system is restarting to apply the trial license. Please wait for a few moments.

After restart login with your default username admin and the password set first time.

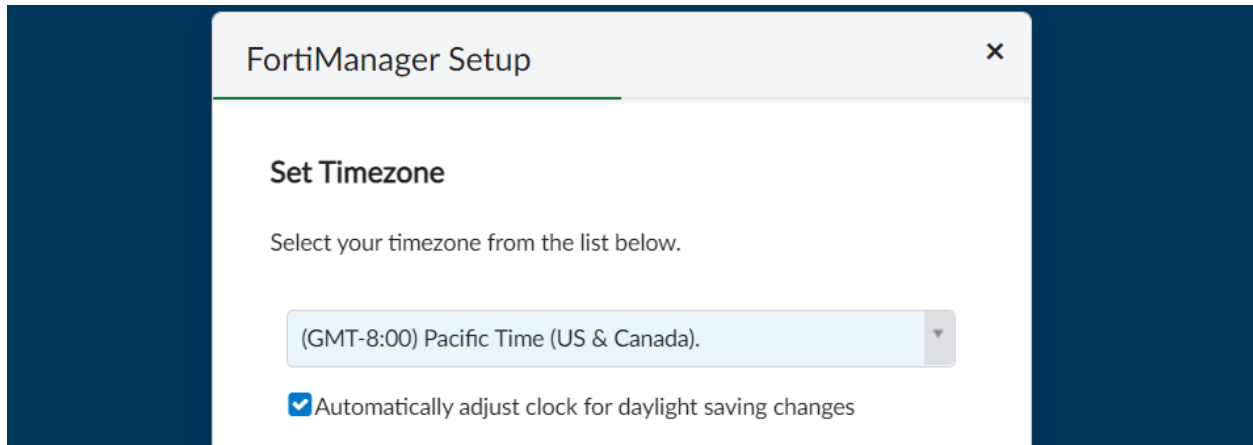

The image shows the login interface for FortiManager-VM64-KVM. It features a blue header with the title "FortiManager-VM64-KVM" in white. Below the title, there are two input fields: the first for the username, which contains "admin", and the second for the password, which contains three dots. A red "Forgot Password" link is visible next to the username field. Below the password field is a blue "Login" button.

When actions are complete, a green checkmark displays beside them in the wizard, and the wizard no longer displays after you log in to FortiManager. Click Begin to start the setup process now. Alternately, click Later to postpone the setup tasks.

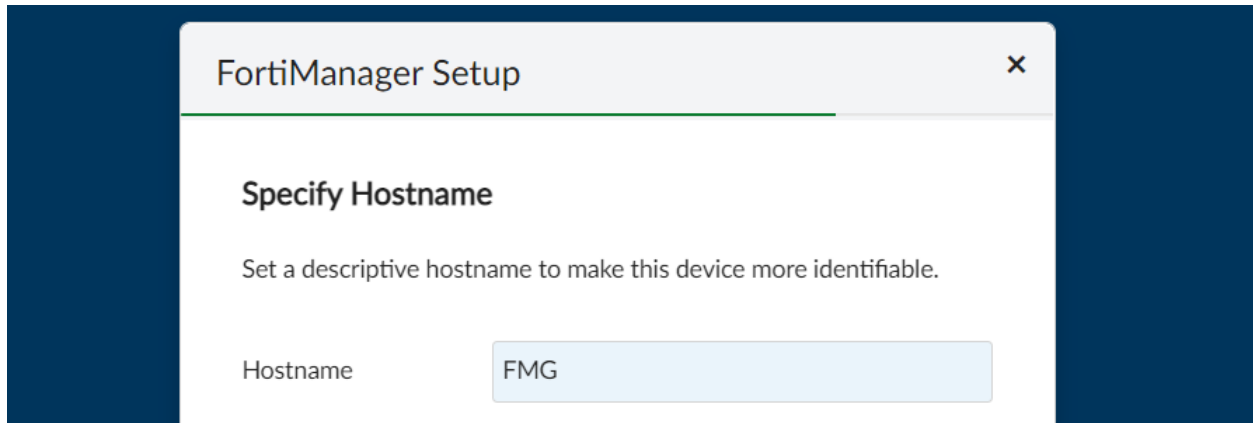

The image shows the FortiManager Setup wizard. The title bar says "FortiManager Setup" with a close button. The main content area is titled "Welcome" and says "Perform the following steps to complete the setup of this FortiManager." Below this, there are four steps listed in a light blue box: 1. Register and SSO with FortiCare (with a green checkmark), 2. Change Your Password (with a green checkmark), 3. Set Timezone, and 4. Specify Hostname. At the bottom right, there is a blue "Begin" button.

When prompted, set the time zone. From the list, select the time zone. Clear the Automatically adjust clock for daylight savings changes checkbox if desired. Click **Next**.

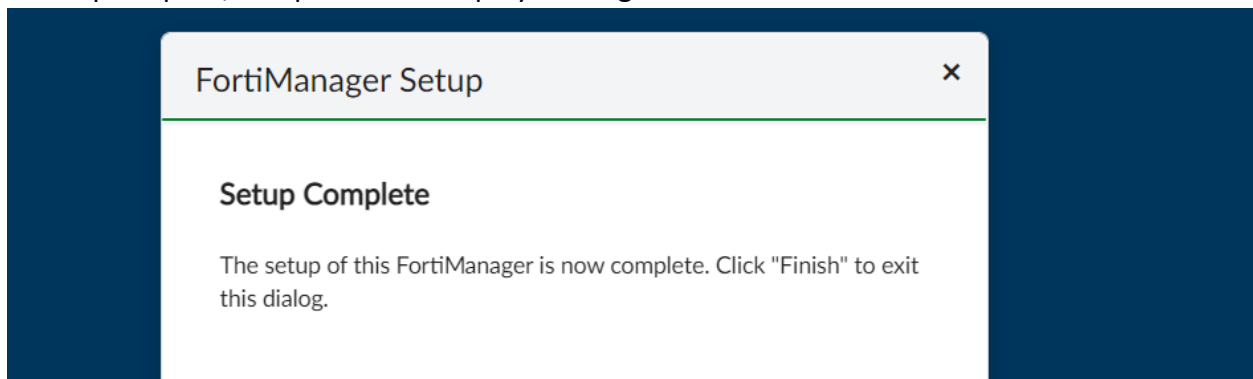

The image shows a 'FortiManager Setup' dialog box with a title bar containing a close button (X). The main heading is 'Set Timezone'. Below it, the text says 'Select your timezone from the list below.' There is a dropdown menu showing '(GMT-8:00) Pacific Time (US & Canada)'. At the bottom, there is a checkbox labeled 'Automatically adjust clock for daylight saving changes' which is currently checked.

When prompted, specify the hostname. In the Hostname box, type a hostname. Click **Next**.

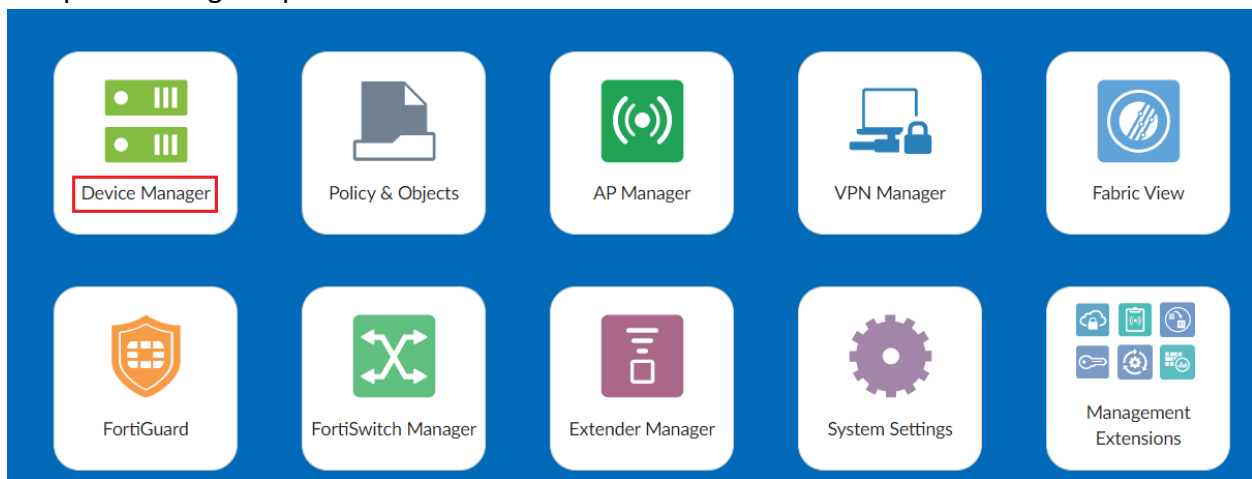

The image shows a 'FortiManager Setup' dialog box with a title bar containing a close button (X). The main heading is 'Specify Hostname'. Below it, the text says 'Set a descriptive hostname to make this device more identifiable.' There is a text input field labeled 'Hostname' with the value 'FMG' entered.

When prompted, complete the setup by clicking **Finish**.

The image shows a 'FortiManager Setup' dialog box with a title bar containing a close button (X). The main heading is 'Setup Complete'. Below it, the text says 'The setup of this FortiManager is now complete. Click "Finish" to exit this dialog.'

You are logged in to **FortiManager**. When you log into the FortiManager GUI, the following home page of tiles is displayed. Add and manage devices and VDOMs. Create and assign scripts and provisioning templates. You can also access the SD-WAN monitor and VPN monitor.

Configure policy packages and objects. The **Policy & Objects** pane enables you to centrally manage and configure the devices that are managed by the FortiManager unit.
